

1. What are the TWO names of God used in Genesis 1 and Genesis 2? What does each name tell us about God?

2. Why does the lesson say Genesis 1 and 2 are 'complementary, not contradictory'? Explain in your own words.

3. Look at the Six Days pattern. Day 3 created dry land and plants. What did God create on Day 6 to 'fill' this realm? Why does this pairing make sense?

4. The lesson lists five dimensions of imago Dei. Choose ANY TWO and give a real-life example for each:

5. In your own words, explain the difference between the Young Earth Creationism view and the Framework / Literary View. Which aspect do they disagree about?

6. 'The most important question in Genesis 1 is not HOW God created, but WHO created and WHY.' Do you agree? Use the lesson's four views on Genesis 1 and the idea of imago Dei to explain your answer.

7. What does it mean to have 'stewardship' of creation? Using the lesson's ideas about imago Dei (especially dominion and relationality), explain how a Christian should treat the environment. Give TWO practical examples.
