Knowledge Check — Questions & Model Answers

- Identify the adverb in "The river carved its relentless path through the limestone valley, slowly." — SLOWLY. It modifies the verb "carved" (HOW it happened). "Relentless" is an adjective; "through" is a preposition.
- Which sentence uses an abstract noun? "Her courage never wavered." — COURAGE is an abstract noun — an idea you cannot physically touch or see.
- What is wrong with "She spoke incredible loud"? — "Incredible" is an adjective; it cannot modify another adjective ("loud"). You need the adverb "incredibly."

- Which part of speech is "Every" in "Every civilisation has its turning point"? — DETERMINER. It comes before the noun "civilisation" to specify quantity/scope.
- A writer uses "might" instead of "will." What effect does this create? — UNCERTAINTY and tentativeness — the outcome is not guaranteed. Modal verbs signal the writer's attitude toward certainty.
