

Match each word to its correct meaning. Write the letter in the box.

1. Complete the table. Write the FUNCTION (job) of each plant part and what would happen without it:

2. What do plants need to grow? Write the correct word next to each description:

Words to use: sunlight water nutrients air (carbon dioxide)

3. A plant was kept in a dark cupboard for two weeks. What do you predict happened to it? Use what you know about leaves and photosynthesis to explain.

4. The stem is sometimes described as the plant's "drinking straw." Explain what this means. What would happen to the flower if the stem was broken?

5. A student says: "Seeds and flowers do the same job." Do you agree or disagree? Explain by describing the job of EACH part clearly.

6. Design a fair test to find out whether plants grow taller with MORE sunlight. Fill in the boxes:
