

Do not just define the word. Write a sentence that uses it correctly AND shows you understand it.

1. Study the map carefully. Answer ALL questions using compass directions.

2. Map symbols — write what each symbol stands for AND explain what you would find there:

3. A map shows a place from ABOVE, like a bird looking down. Explain why maps are drawn from above rather than from the side. What information would be LOST if maps were drawn from the side? Give TWO specific examples.

4. Maps use symbols instead of drawing everything in detail. Give THREE reasons why this is better. Then explain: what would happen if two symbols on a map looked almost the same? Why is the KEY so important?

5. A new playground is going to be built somewhere on the map above. Using COMPASS DIRECTIONS and the PLACES shown, write a report recommending the BEST location. You must: say which location you choose, explain why using compass directions, and explain why other locations would be less suitable.
